

OPEN ACCESS TO RESEARCH OUTPUT

Open Access - what, why and how

Researchers and students affiliated to the University of Bergen can make their scientific publications available open access through the institutional online research archive, Bergen Open Research Archive (BORA), or by publishing open access.

What is Open Access?

Quality-controlled Open Access journals

Open Access services at The University of Bergen

Open Access policy at The University of Bergen

The University of Bergen adopted an Open Access-policy in 2012. The policy includes the following statements:

1. The University asks all employees to make their research publications available open access if possible, either through open research archives and/or through open publishing.
2. Employees are encouraged to publish their scientific work with publishers that ensure open access, as far as such publishing does not conflict with academic freedom or the University' goal to publish in reputable publishing channels.
3. Students are encouraged to make their master thesis available in BORA as long as this does not come in conflict with publishing the thesis.

The working group's recommendations and University board's decision can be found here (in Norwegian): <http://www.uib.no/filearchive/2012-088.pdf> (<http://www.uib.no/filearchive/2012-088.pdf>) (case 88)
