

# UWE Bristol policy on open access

UWE Bristol policy on open access, including the main principles.

The main principles of UWE Bristol's policy on open access are that...

- authors need to comply with the open-access policies of their research funders
- authors need to comply with the HEFCE policy for the Research Excellence Framework (REF)
- All authors should deposit a version of the full text of their works, including PhD theses, in the UWE Research Repository, along with supporting metadata describing their research.
